

```
#include <iostream>
```

```
using namespace std;
```

```
int main() {
```

```
    int Num;
```

```
    cout << "Select a number to multiply by 4:" << endl;
```

```
    cin >> Num;
```

```
    cout << "The answer is: " << Num * 4 << endl;
```

```
    return(0; )
```

```
}
```
